Greggs is a leading UK food-on-the-go retailer with nearly 2,000 shops nationwide and serving over six million customers a week.

Celebrating its 80th birthday in 2019, Greggs diversified its growth strategy in 2013 to transform the business from a traditional bakery business into a modern, attractive food-on-the-go retailer, bringing about significant changes to the quality and relevance of its product offer as well as the positioning and refurbishment of its shop estate.

The business has invested £100 million to support growth and reshape its own supply chain in order to compete more effectively in the food-on-the-go market. The major investment programme created additional manufacturing centres of excellence and increased capacity to support shop expansion substantially beyond 2,000 outlets in the UK. As part of this, the retailer has extended its company-managed shop reach to new territory in Devon, in addition to opening further shops in Northern Ireland. It also successfully developed a new Drive Thru format to compete effectively in this type of location and continues to seek new sites.

Greggs brand proposition brings together everything good that Greggs does, from serving freshly made delicious sandwiches to offering Fairtrade hot drinks and supporting more than 480 breakfast clubs in schools across Britain, playing a fundamental role in how the nation feels every day.

Greggs continue to specialise in daily fresh shop-made sandwiches and savouries baked off fresh in the shop ovens throughout the day. These are further complemented by popular and growing ranges including freshly ground coffee, breakfast, confectionery, heat to eat sandwiches and Balanced Choice.

The Balanced Choice range offers a choice of savouries, wraps, sandwiches, salads, soups, porridge, fruit, yoghurt and drinks, which are all less than 400 calories and meet amber and green on the nutritional traffic light system for fat, saturated fat, salt and sugar.

Greggs' loyalty scheme 'Greggs Rewards', is a mobile payment app designed to reward its customers for their loyalty whilst making shopping across its shops more convenient, quicker and easier.
